Experienced full-stack web developer skilled in HTML, CSS, SCSS, and JavaScript. Strong background in responsive design and cross-browser compatibility. Passionate about user-friendly web experiences. Seeking challenging opportunities to apply expertise.

### Skills and Technologies:

**Expertise:** JavaScript, TypeScript, React.js, Node.js, Express.js, Next.js, MongoDB, Firebase(Auth, Hosting) JWT, Stripe Payment, Material UI, Daisy UI, Tailwind css and Bootstrap.

**Comfortable:** TypeScript, JavaScript, React.js, Express.js, Node.js, MongoDB.

**Familiar:** Docker, Kubernetes, Sql, React Native, RedHat Linux, Windows server.

**Tools:** Vite, Vs code, NPM, AI tools, Vercel, Netlify, Figma, Git, GitHub and much more.

### Project:

#### 01. Photography

[Live-link](#) . [Client-code](#) . [Server-code](#)

- Utilized Material-UI for creating an intuitive and visually appealing user interface.
- Integrated Apex Charts to present data effectively through interactive and visually stunning visualisations.
- Implemented secure user authentication using Firebase Auth, ensuring a robust login and registration process.

**Technology:** MongoDB, Express.js, React.js, Node.js

#### 02. A little toy store

[Live-link](#) . [Client-code](#) . [Server-code](#)

- Implemented secure user registration and login using Firebase Authentication for a toy store project.
- Utilized role-based access control to differentiate between different user roles (e.g., administrators and regular customers) within the toy store.
- Integrated customizable user profiles, allowing customers to manage personal information, addresses, and track order history.

**Technology:** React Hook form, Firebase Hosting, MongoDB, Express.js, React.js, Node.js

#### 03. FreshZone

[Live-link](#) . [Client-code](#) . [Server-code](#)

- Implemented authorized routes to restrict access to specific features based on user roles.
- Ensured only authorized chefs can create and edit recipes, maintaining data integrity.
- Improved user experience by tailoring features and content based on user roles.

**Technology:** Firebase Social Login, MongoDB, Express.js, React.js, Node.js.
